BGY35

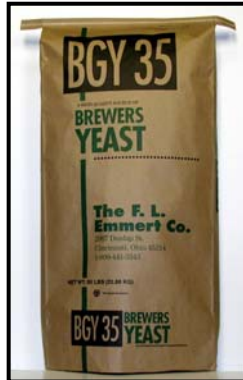

Our AAFCO-approved brewer's yeast product

BGY35 provides **fresh brewer's yeast** for pet foods, livestock feeds, and other applications in an economical, palatable, free-flowing form

Guaranteed

Why should you choose BGY35?

For **more than 30 years**, BGY35 has been used and accepted as a source of brewer's yeast for pet foods, livestock feeds, aquaculture feeds, and organic fertilizer

Brewer's Yeast

Why is our brewer's yeast the best?

- ✓ It offers an all-natural source of B complex vitamins and amino acids
- ✓ It improves feed efficiency while increasing fiber digestion
- ✓ It is highly palatable and supplies natural minerals
- ✓ It is loaded with highly digestible protein and a wide range of vitamins

Balanced

What makes brewer's yeast effective?

- ✓ It balances and feeds bacteria
- ✓ It produces enzymes necessary for efficient digestion
- ✓ It helps the digestive system work at peak efficiency

Our Process

Our exclusive process assures quality

This **lower drying temperature** preserves nutrients and assures consistent palatability

Superior

Why is BGY35 the best product for you?

- ✓ Superior value and performance over traditional yeast products
- ✓ Proven through research, field trials, and commercial use
- ✓ Made with all natural ingredients and is a natural ingredient binder
- ✓ Carefully produced from the highest quality grains and yeasts
- ✓ Specially blended and processed to enhance and preserve nutritional quality and effectiveness

Reputable

BGY35 is proven in pet foods

BGY35 has been
researched and accepted
for use by leading pet food
manufacturers throughout
the industry for more than
30 years

Advanced

BGY35 is proven in dairy calf feeds

“... inclusion of [BGY35] in the dry feed of calves **significantly reduced** the percentage of days with elevated body temperature and antibiotic treatments from those of control.”

Source: W.M. Seymour, J.E. Nocek, J. Siciliano-Jones
Agway Inc., and
Cooperative Research Farms
Ontario, Canada

Supreme

BGY35 is proven in equine feeds

“... this supplement was well received by all horses and ... **improved hair coat quality** and **overall body condition** and **muscling** when compared to horses receiving the customary grain and hay and/or pasture.”

Source: C.M. Reitnour
Dept. of Animal Science and Agricultural Biochemistry
University of Delaware

Beneficial

BGY35 is proven in aquaculture feeds

“... red claw [crayfish] can be fed a diet in which all of the fish meal has been replaced by 80% soy bean meal and 5% BGY. This may allow for a **decrease in diet costs** for producers and **potentially increase profits**”

Source: L.A. Muzinic, K.R. Thompson, A. Morris, C.D. Webster
Aquaculture Research Center
Kentucky State University

Consistency

BGY35 provides consistent quality
